Web Hosting Guide

Cheat Sheet

What's Web Hosting?

Web hosting is something like your own space on the internet.

Importance of Choosing a Good Web Hosting

Since web hosting is the foundation pillar of your blog, you must take care of it.

A good web hosting service ensures a good ROI from your business.

Generally, good web hosting services are a bit expensive than their mediocre competitors.

However, it really pays off in the long run.

Recommended Features of A Good Web Hosting Service

- Speed
- Security
- Storage
- Uptime
- Backup
